

VEDIC BIO-VILLAGES

Brahmananda
ENLIGHTENMENT TRUST

CONCEPT OF VEDIC BIO-VILLAGES

Our goal is to bring lasting prosperity, peace and bliss in these Vedic bio-villages for generations to come.

4 pillars in creating the Vedic bio-villages are

1. Raising the Consciousness and awareness with Vedic technologies for maximising intelligence, creativity and bliss in each individual of all age groups in the village. Meditation (Transcendental Meditation - TM) is the foundation for the transformation and expansion in every individual and the whole village.

For Sathvik mind & behaviour

2. Revival of Vedic Organic Agriculture with scientifically proven technologies with protection of Desi cows, organic dairy farms, replenishing and safe-guarding the land, water, agro-forests and other natural elements. Training centers will be set up to reach out to all the farmers.

Wholesome, nutritious food

3. Bringing Natural and holistic health with Ayurveda, cultivating common herbs, processing and formulating the remedies for daily usage by the villagers and also to market the products.

Healthy, blissful body

4. Creating jobs to improve the economy in every village with cottage and small scale industries using locally available resources and the revival of the culture, traditions, arts & crafts, languages & dialects, festivals and so on. And make these Vedic bio-villages as Tourist destinations, Rejuvenation & Spiritual retreats and even Retirement Communities.

Sustainable living

Our goal is to create Vedic Bio villages, Communities living with abundance and peace and happiness.

It's an essential need to bring harmony, prosperity and self-sufficiency in Indian villages. This is how they were at one time in the past.

It is essential to make these village communities all Natural and Holistic in lifestyle, behaviour, food, health, environment etc.

WHY VEDIC BIO-VILLAGES

- It is the need of time for India and the world
- Veda is pure knowledge
- Veda and Vedic technologies are universal
- All cultures and traditions can adopt this knowledge and technologies
- Attain peace individually and globally
- Have lasting happiness individually and globally
- Be personally empowered and enlightened

- Protect our environment from chemicals, toxins and pollution
- We bring back abundance, health, bliss, prosperity and to live in freedom without fear, greed and suffering
- We create opportunities for self employment, cottage industry, self sufficiency to the growing young generation
- We bring balance in health with Ayurveda for all age groups. We bring prevention of many disorders. This will maintain good health, cut down on the cost of health care and allopathy is used when needed and for crisis intervention
- Vedic organic agriculture and dairy will be the norm. The land, water and air will be free of pollution. Our goal is to make every village be organic in one year.
- Vaasthu is used for homes and farms. Ecofriendly building materials will be preferred
- In these Vedic villages all people should feel fulfilled and elders feel secure and cared for-to pass on their wisdom to the family and community.

ENLIGHTENMENT IS OUR BIRTH RIGHT

- In these Vedic Bio-Villages, life is lived in accord with nature. It is spontaneous conscious living without violating the laws of nature and fully enjoying nature's support
- It is spontaneous evolution for every person and every being in that community to perfection in life and ultimate liberation
- It is also imperative that the children grow up in a safe and secure environment to their fullest potential
- We will create one peace palace for a cluster of 4 or 5 Vedic Bio-Villages where people of all ages can do group meditation, yogic flying etc. as weekend or week-long retreats

**THOSE IN VANAPRASTHA STAGE OR SERIOUS
SEEKERS CAN LIVE IN THESE PEACE PALACES AND
DO THEIR SADHANA UNINTERRUPTED**

BREATHING LIFE INTO VILLAGES

So many villages all across India.

So many young people and children.

Revival of these villages with Vedic technologies will foremost create a new powerful generation with many opportunities within these villages itself.

Self employment with agriculture and related cottage and small scale industries in these Vedic Bio Villages is vital for this young generation.

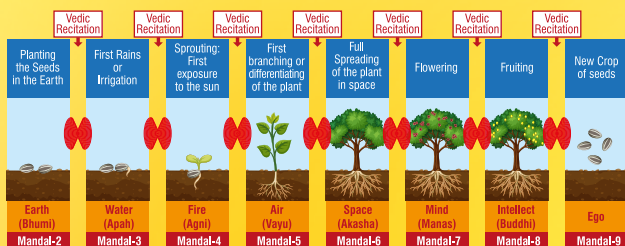

Several young people will remain and thrive economically in these peaceful and non polluted communities.

VEDIC TECHNOLOGIES ARE TRULY MODERN

- Vedic technologies fulfill the need of modern living
- Vedic technologies are all rooted in consciousness and hence bringing wholeness
- Brings totality to every aspect of life and existence
- This is the true living in sanatana dharma
- Revival of Vedic technologies is the need of time for a prosperous and peaceful village, community, country and the world
